

MCA-47 PROJECT WORK

General Course Information

Course Code: MCA-47 Course Credits: 6 Mode: Self learning under the guidance of a faculty member.	Course Assessment Methods (internal: 30; external: 70) Evaluation is done by the internal examiner (project guide) and external examiner appointed by Controller of Examination. The criteria for evaluation are given below. 1. Review of literature related to problem domain: 15 2. Significance and originality of the solution presented: 15 3. Application of software engineering principles and project management: 15 4. Significance and Scope of results: 20 5. Organization and presentation of major project report: 20 6. Level of Ethics and societal issues covered: 15

About the Project Work:

Students start working on their project work in the beginning of fourth semester. Students do the background research for identifying appropriate problems, methodology and tools for their respective project works. They prepare a synopsis of the project work to be carried out. Each student is required to prepare a synopsis in the format provided and present it in front of a committee constituted by the Chairperson of the Department. Students can carry out projects in groups of two. In case of group project, the size of the problem should be significant, and members of the group must specify their individual contribution.

After approval by the internal committee, they continue working on their project work throughout 4th semester. They carry out implementation of their respective projects based on the problem identified, methodology and tools suggested in the approved synopsis. They are required to complete their project work by the end of 4th semester. They prepare the final project reports according to the format provided. At the end of fourth semester, each student is required to present his/her project work in front of internal project guide and external examiner appointed by Controller of Examination.

Course Outcomes: After doing Project students will be able to:

- CO1. **Evaluate** critically the existing solutions and methodologies through reviewing literature.
- CO2. **Plan** the project according to principles of project management.
- CO3. **Devise** original solutions to complex problems using modern tools.
- CO4. **Justify** the outcomes of the project work.
- CO5. **Organize** and communicate (written and oral) ideas effectively.
- CO6. **Develop** solutions that meet ethical, societal and legal considerations.

Guidelines for preparing Project Work (Synopsis)

All the students are required to follow these guidelines for preparing their project synopsis.

General Guidelines

1. The student should follow ethical practices while doing the synopsis work. Any violation of ethical practices will lead to rejection of the synopsis. For instance, a plagiarized synopsis or a readymade synopsis purchased from market will be rejected straight away.
2. The synopsis must be submitted to the internal guide in soft binding at least 7 days before the presentation so that he/she can suggest changes.
3. Synopsis carried out in groups of two students must include the division of work.

Guidelines for preparing Project Work Report

All the students are required to follow these guidelines for preparing their final project report.

General Guidelines:

1. The title of the project must be same as that of the title in the synopsis submitted.
2. The report must include a declaration by the student that he/she has followed ethical practices while doing the project work. Any violation of ethical practices will lead to rejection of the report. For instance, a plagiarized report or a readymade report purchased from market will be rejected straight away.
3. Project works carried out in groups of two students must include the individual contribution of the students.
4. A CD of the project work should be included in closed pocket inside the back cover page. The CD must bear the name, registration number and title of the project.
5. The report must be submitted to the internal guide in soft binding at least 10 days before the final examination so that he/she can suggest changes before the report is presented to external examiner.

Formatting Instructions

The formatting instructions are given in Table below.

Formatting Instructions		
Sr. No.	Item	Formatting
1.	Front Cover	Dark Green and contents in golden ink
2.	No. of pages	Minimum 40 and maximum 70 excluding front material
3.	Paper size	A4
4.	Font Type	Times New Roman
5.	Chapter Heading Font	16
6.	Font of Sections and Subsections	14 and 12 in bold style
7.	Numbering style for sections and subsections; Do not use more than three levels.	2., 2.1 and 2.1.1
8.	Normal text size	12
9.	Figures and Tables must be numbered chapter-wise. Table headings on the top of the tables and Figure heading at the bottoms of the figures.	For example for chapter 2, Figures should be numbered as Fig. 2.1, Fig. 2.2 etc. and Tables as Table 2.1 and Table 2,2 etc.
10.	Page numbering	Place: Centre Bottom Type: Front material in Roman numbers Body of the report: in Arabic numerals. Pagination must start with first page of the first chapter and continue throughout the end of the report.
11.	Margins	Left margin: 3.75 cms (1.5 inch) Right, bottom, top= 2.5 cms (1 inch)
12.	References/Bibliography	IEEE format
13.	Binding	Hard binding of good quality

Contents of the Project Report

The contents of the report should be organised as described below.

1. The first page in the report should be same as the cover page.
2. Declaration that the students has carried out his work on his own. It is his/her original creation, not plagiarised from any other source and due credit has been given to the source material used in the report through references and citations.

3. Acknowledgement

Abstract (in not more than 250 words)

This answers the question what have you done? How have you done and brief indication about the results.

8. Body of the Report

The report must be written in English. The ideas must be organised in a clear and concise fashion. Chapters must be tentatively organised as below.

Chapter 1. Introduction

This includes introduction to relevant area of project, problem formulation objectives of the project, and structure of the project report.

Chapter 2. Background Details and Literature Review

Chapter 3. Design or Framework of the project work

Methodology, Data Flow Diagrams, Entity Modelling etc.

Chapter 4. Discussion and Analysis of Results

Discussion and comparison of results.

Chapter 5. Conclusion and Future Scope

This includes relevance and scope of the project work, and its extensions.
