PART- B

I. ACADEMIC PROGRAMMES & FACULTY POSITION

1. Explain the process of course Development at your institution/University by highlighting the various steps involved:

Process of Course Development

Various courses in Distance Education are offered after the approval by the competent authority of the University. The course structure and contents of the syllabi are developed / prepared in accordance with the Model Course Curriculum adopted by UGC / relevant bodies. The UG/PG and Post Graduate Diploma courses are prepared / developed by Experts in the related Departments and the same are sent for approval from PG / UG Boards of Studies and then to the Academic Council for the final approval. The modification / amendment in the same are done through the same process, thereby, ensuring transparency and latest trends. As far as possible, market requirement is kept in mind while designing the course curriculum.

Development of course material

The Directorate of Distance Education is responsible for the development of course-material to be provided to the distance learners. The course material is developed in SIM (Self Instruction Mode) format by the experts in the respective related departments of the University or the other Universities / institutions. The SIM format has been adopted as per the requirement of DEB UGC (Erstwhile DEC). The experts authoring and vetting the lessons are remunerated as per University norms. The whole exercise is done with co-ordination of respective course co-ordinators of Distance Education Courses. This process is continuous and feedback is also taken from time to time to improve the quality of study material as per latest requirement.

Production of Print Material

The course material developed by experts is sent for printing after final approval by the respective course coordinators. The printing press is chosen as per University procedure by inviting bid from different bidders. The materials which are under process of development by the experts are sent for printing and development by the publisher in SIM format through process adopted by the University.

2. Specify whether the following activities are done in-house or are out sourced, tick correct option.
